

Stud terms for Live Foal Guarantee. [LFG]

The LFG is for a 24 hour old foal that is standing and nursing.

Conditions for this guarantee are as follows:

- The mare has been Inseminated by a qualified vet or AI technician approved by DEFRA.
- The mare has been pregnancy scanned by a qualified vet before 20 days post AI and again at approx 42 days.
- The mare has been fully vaccinated for flu & tetanus; she must also have had a full course of equine Herpes vaccinations [EVH] administered at 5, 7, and 9 months.
- The mare has been on a regular worming programme.
- Appropriate supervision of foaling must have been provided.
- Where the foal has been born alive, the foal must have been examined the foal within 24 hours of birth and a blood sample analysed to assess IGG levels.
- The mare has not been exposed to other horses with known infections.
- If your mare does not become pregnant in this breeding season, the guarantee carries for one year, providing the mare is not attempted to breed with from another stallion.
- If the mare is competed during pregnancy the LFG becomes invalid.
- If the mare is breeding for ET, please speak to me regarding terms.
- If the mare dies, please contact me immediately.
- The guarantee applies to the stud fee only.
- In the event that the chosen stallion is no longer available for whatever reason, you may choose another stallion of ours at stud. If at a more expensive stud fee, the difference is payable.
- Any relevant paperwork needed from vet will be required and checked. A full veterinary report will be required to certify abortion or death at birth.
